Together we can fight the growing population of poverty, support the artisans in rural communities and help keep the environment clean and green!

From recycled phonebook directories

Handmade by Filipino artisans in Manila, these bags transform old telephone directories into a practical, everyday accessory. Through innovative thinking, using resources that are normally tossed aside, these artisans have embraced the idea of thinking outside of the box. Latch closure using wooden bead, bamboo handle, waterproof coating means its safe from the rain, and makes it stiff, so the bag will hold its shape. It comes in 3 sizes
